

## OVERVIEW

Zemecs T875A is a novelty product providing a comfortable and error free termination of Zemecs T481 (Category 6<sub>A</sub>), T471 (Category 6) and T411 (Category 5e) series UTP 180° keystone jacks. It combines the advantage of punching 8 pins simultaneously by applying equal pressure and cutting excess wires at one go! Therefore contact stability is guaranteed and termination time is reduced up to 80%.

**Only compatible with listed Zemecs keystone jack models. May not be used with other brand products.**

## FEATURES

- Single tool for punching and cutting excess wires
- Easy termination of 22 - 26 AWG solid wires
- PVC handle designed to fit hand properly
- Alloy steel termination head and carbon steel body

## APPLICATIONS

- Termination of Zemecs T471, T481 and T411 series UTP 180° keystone jacks

## MATERIAL SPECIFICATIONS

Housing Material	Carbon Steel
Termination Blade Material	Alloy Steel
Keystone Jack Housing Material	Nylon Fiber
Handle	Polypropylene /S45C Steel
Compatible Keystone Jack Models	All Models of Zemecs T471, T481 and T411 Series UTP 180° Jacks
Colour	Housing: Black, Handle: Blue

## MECHANICAL SPECIFICATIONS

Durability(Termination Cycles)	2.000	Cycles, Max.
Contact Compatibility	22-26 AWG	Solid

## ENVIRONMENTAL SPECIFICATIONS

Transportation & Storage Temperature	-15 / +50	°C
Instalaltion And Operation Temperature	-10 / +50	°C
Relative Humidity	10 - 90, Non-condensing	%
